

ICANN RegisterFly Update

7 March 2007

ICANN provides the following update:

- PIR notified ICANN that the .ORG registry has restored the domains that were in RGP and placed those domains on Server Deleted Prohibited status. [[PIR Letter to ICANN](#), PDF, 13K]
- On March 5, 2007, RegisterFly provided a copy of domain name registration data in response to ICANN's request pursuant to RAA section 3.4.3. ICANN is analyzing the data for integrity and completeness. ICANN will respond to RegisterFly with questions regarding aspects of the material provided. This material represents a portion of the material requested in [ICANN's letter of February 21, 2007](#) [PDF, 104K].
